# Lael Environmental

Compliance support. Clear records. Practical training.

Serving Woodstock, Cherokee County, North Georgia, greater Atlanta, and Athens. We help businesses and project teams organize environmental responsibilities and coordinate practical next steps.

## HOW WE CAN HELP

**Compliance documentation** - Records organization, document inventories, follow-up tracking, and preparation for compliance discussions.

**Training and procedures** - Environmental awareness materials, checklists, staff training, and practical procedure development.

**Water and facility support** - Stormwater and wastewater documentation, spill-prevention program support, and coordination around site responsibilities.

**Project coordination** - Information requests, meeting preparation, action tracking, and coordination with qualified professionals.

## PEOPLE AND EXPERIENCE

### Hannah Widener | Environmental services delivery

M.S., Environmental Management; B.A., Biology - Hardin-Simmons University. Experience in compliance assistance, air-quality investigations, technical reporting, water-program management, and environmental training. Background includes the Texas Commission on Environmental Quality and Georgia public-sector environmental programs.

### Benjamin Widener, PMP | Client outreach and coordination

Project Management Professional with experience in project delivery, documentation, stakeholder communication, and cross-functional coordination.

## START WITH A DEFINED SCOPE

Begin with one site, one program, or one training need. A starting engagement may include a document inventory, open-items tracker, tailored checklist or training outline, and a review conversation. Scope, schedule, and fees are agreed before work begins.

## LET'S DISCUSS YOUR PROJECT
